About Me

Creative and innovative Frontend Engineer with over five years' experience building fully responsive websites and apps in fast-paced, large scale environments. Highly skilled in HTML/CSS/JavaScript/React and many other technologies listed below. Well-versed in collaborating and leading across multiple teams and departments.

Professional Experience

Apr 2018 – Oct 2021 Hercules, CA / Remote	Web Developer, Bio-Rad Lead a team of three developers in creating various web apps and a web framework. Worked collaboratively with designers, project managers and marketers across EMEA, APAC and AMER. <ul style="list-style-type: none">• Created and maintained a custom proprietary in-house web framework (inspired by Bootstrap), which became adopted company wide.• Developed a 'widget' web app which gave marketers the ability to copy widgets from a library, which could be pasted into emails and stacked to create custom targeted marketing emails.• Worked directly with marketers and project managers to intake project requests, create project plans/timelines and delegate tasks amongst web team to ensure deadlines were met.
May 2017 – Mar 2018 Remote	Web Developer, STN Digital <ul style="list-style-type: none">• Maintained and developed client facing websites as well as created a custom file handoff system to shorten and automate asset handling.
Oct 2015 – Aug 2016 Middletown, RI	Instructional Systems Specialist, Netsimco. <ul style="list-style-type: none">• Developed an off line e-learning program for US Naval Officers to earn their Master's Degree while deployed or traveling.• Project was built with Angular, Bootstrap and JQuery
Jun 2010 – Sep 2015 Newport, RI	Web Developer + Store Manager, Breakwater Surf Co. Created 2000+ WordPress e-Commerce website for Breakwater Surf Co. utilizing the PayPal Express API. The project took six months to launch and remains active.
