About Me

Creative and innovative Frontend Engineer with over five years' experience building fully responsive websites and apps in fast-paced, large scale environments. Highly skilled in HTML/CSS/JavaScript/React and many other technologies listed below. Well-versed in collaborating and leading across multiple teams and departments.

Professional Experience

Apr 2018 – Oct 2021 Hercules, CA / Remote	Lead Web Developer, Bio-Rad As the lead developer, I created and maintained our custom proprietary in-house web framework (inspired by Bootstrap), which was adopted across multiple marketing and development teams located around the world. The framework was created with JavaScript, JQuery, CSS and HTML. Worked directly with marketers and project managers to intake project requests, create project plans/timelines and delegate tasks amongst web team to ensure deadlines were met. Projects consisted of landing pages, custom web app, webinars, and custom customer funnel requests utilizing our framework. Developed a 'widget' web app which gave users the ability to copy widgets from a library, which could be pasted into emails and stacked to create custom targeted marketing emails.
May 2017 – Mar 2018 Remote	Web Developer, STN Digital Maintained WordPress Multi-Site as company's customer entry and exit point as well as private file handoff solution.
Oct 2015 – Aug 2016 Middletown, RI	Instructional Systems Specialist, Netsimco. Transformed the Naval Officer's Master's Degree program from PDF/DOC format to a web app using Angular1, Bootstrap and JQuery. Project was completed in one year, then shipped to Naval Officers serving around the world.
Jun 2010 – Sep 2015 Newport, RI	Web Developer + Store Manager, Breakwater Surf Co. Created 2000+ WordPress e-Commerce website for Breakwater Surf Co. utilizing the PayPal Express API. The project took six months to launch and remains active.
