About Me

A life long computer enthusiast who has found his path leading towards full stack development. Starting from the early days the first family Compaq95, to the highschool days of packet manipulation and LAN parties, networking and server management, to the present day of web developer. My lifetime passion to create awesome stuff continues to grow.

Professional Experience

Apr 2018 – Oct 2021
Hercules, CA / Remote

Lead Web Developer, *Bio-Rad*
As the lead developer, I created and maintained our custom proprietary in-house web framework (inspired by Bootstrap) which was used company wide throughout different marketing development teams and departments. The framework was created with JavaScript, JQuery, CSS and HTML.

Developed a 'widget' web app which gave the ability for marketers to copy widgets from a library, that could be pasted into emails and stacked to create custom targeted marketing emails.

Worked directly with marketers and project managers to understand requests and delegate amongst team members. Was responsible for driving project direction from conception to launch.

May 2017 – Mar 2018
Remote

Web Developer, *STN Digital*
Responsible for maintaining WP Multi-Site as companies customer entry and exit point as well as private file handoff solution.

Oct 2015 – Aug 2016
Middletown, RI

Instructional Systems Specialist, *Netsimco.*
I was responsible for receiving the Naval Officer's Master's Degree program in PDF , DOC form and recreate the program in Angular1, Bootstrap and JQuery. Being the only developer on the team, the project was designed and created by myself over the course of one year. A custom quiz system was also created and implemented as study material between each 'chapter'. Completed product was then shipped around the world to give Naval Officers the ability to study from anywhere.

Jun 2010 – Sep 2015
Newport, RI

Web Developer + Store Manager, *Breakwater Surf Co.*
Created 2000+ WordPress e-Commerce website for Breakwater Surf Co. utilizing the PayPal Express API. The project took six months to launch but was and still is very successful.
